FORENSIC INVESTIGATION TRAINING COURSES FOR LAW ENFORCEMENT

In today's world, forensic science plays one of most important roles in the detection and prosecution of offenders. With our range of tailored courses, we can provide the ideal solution to our client's needs.

✓ Crime Scene Investigation

This course introduces students to the theories of forensic science and practical skills required to successfully process a crime scene.

✓ Major Crime Scene Management

At a major crime scene there are often conflicting priorities and several specialist roles. This course provides experienced forensic investigators and police officers with the skills and knowledge required to successfully manage a major scene.

✓ Major Incident Forensic Co-ordination

✓ Fingerprint Comparison and Identification

✓ Footwear, Tiretrack and Toolmark Identification and their use as Intelligence

✓ Forensic Botany and Palynology

✓ Forensic Archaeology and Anthropology

✓ Detection Dog and Handler Training

✓ Bomb Technician

✓ Road Accident Investigation

FORENSIC INVESTIGATION & GENERAL COURSES FOR LAW ENFORCEMENT, GOVERNMENT & OTHER INVESTIGATIVE UNITS

Many organisations, including the police and public and private sector companies are involved in investigating offences and need to demonstrate both transparency and investigate skills to the courts.

In today's criminal justice systems, every little detail counts. With this in mind, we have developed a portfolio of courses designed to give investigative and protective professionals the best knowledge and skills development available.

✓ Investigation Skills

✓ Investigative Interviewing

This course provides the necessary skills in obtaining information and evidence from suspects.

✓ Senior Investigating Officer

✓ Forensic Awareness for Police officers/ Staff, Government and NGOs

✓ Surveillance Techniques

✓ Driving VIPs, Anti-Hijacking and Traffic Pursuit and Containment

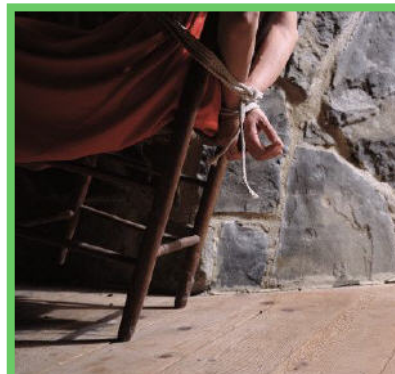

✓ Hostage Kidnap & Ransom

✓ Intelligence/ Counter Intelligence

✓ Courtroom Skills

Using student's casework, this practical course prepares them for the potential pitfalls of giving evidence in courts.

✓ Mass Disaster Planning

PRIVATE SECTOR FORENSIC AND SECURITY AWARENESS

When a business is a victim of crime, the few minutes between the offence taking place and the first emergency services arriving are crucial. Simple steps to preserve evidence can make the difference between a conviction and acquittal.

✓ Crime Scene Preservation and Forensic Awareness

Forensic awareness is essential for all those involved in any situation where there is the possibility of recovering forensic evidence.

Not all forensic evidence is recovered or processed by Crime Scene Investigators. Once it has been taken into police possession, others have a vital role to play in ensuring it is correctly processed. The following courses can help prevent the collapse of a case at court.

✓ Armed Raid Awareness for Commercial Organisations

✓ Counter-Terrorism for Commercial Organisations

✓ Maritime Security

Subject to review, some of our other courses may be available to suitable private sector organisations.

FORENSIC SOLUTIONS FROM 4N6

As well as providing training programmes, 4N6 offers the latest in forensic products, services and consultancy. We design a tailor-made solution to fit your needs.

From DNA laboratory solutions to the latest innovative scene technologies, 4N6 is developing an inspiring product portfolio that is becoming internationally recognised.
